INTERNSHIP AND PLACEMENT YEAR **2021**

Prepared By:

Office of Placement and Alumni
In Collaboration with the
Institutional Quality Assurance Cell (IQAC)

American International University-Bangladesh

1. Introduction

The University's Office of Placement & Alumni (OPA) regularly organizes numerous events to promote the employability of its students and alumni . This takes the form of different types of partnership events, such as the annual career/job fair, corporate briefing to the graduating class, letters of agreement between the university and a number of corporate houses etc.

A list of some of the major companies and institutions employing our students and graduates is given at the end of this document

2. AIUB 20th Convocation, held in October 2021

This Convocation saw 2,878 students graduating from the different faculties and departments of our academic programs. The students belonged to two academic years, namely 2019-20 and 2020-21.

The breakup is given as follows:

Program	Academic Yr. 2019-20	Academic Yr. 2020-21
Undergraduate	1314	1068
Graduate	396	120
Total	1,710	1,168
Graduates of the 20th Convocation	2,878	

The following write-up is related to the academic year 2020-21, i.e., those who did their internships and got employment in 2021

3. Internships during 2021.

A total of 1,136 students completed their internships during the period under review.

Names of some of the companies where they did their internships are included in **List 1** of this report.

4. Employment status of those who graduated in 2021.

On the basis of feedback received through our Tracer study, 890 graduates got employment in 2021.

Names of some of the major employers for the period under review are given in **List 2** of this report

5. Partnership events and programs

As mentioned above, numerous events are carried out by OPA to promote our graduates. In 2021 many of these programs had to be held online due to the pandemic.

Given below , in **List 3** , are pictorials of some of the programs

6. Conclusion

OPA carries out an online Tracer study , to determine employment and similar details about its graduates. This helps plan our activities for the future , so that the overall employability of our graduates becomes more and more visible. It also helps us increase our network with the corporate houses and organizations of the country, in many cases now mostly through our alumni.

- ii. Briefing by CEO of Robi on the impact of the pandemic, in particular on placements. Corporate briefing to our students by the CEO of Robi

iii. **Signing of Memorandum of Understanding (MOU):**

The University has, over the years signed a number of MOUs with different corporate houses, aimed at promoting academia-corporate partnerships by focusing on the employability of our graduates. This MOU was signed for three years.

In December 2020, we signed such an MOU with “Banglalink” a leading telecommunication company of the country. The MOU talks about:

- a. Internships
- b. Club collaborations
- c. Guest Lecturing sessions
- d. Career sessions
- e. Campus to Corporate...etc.
